Headteacher: Mrs K. F. Willis B.Ed NPQH

To all parents and carers of St James'

Your child comes into contact with numerous computing technologies as part of their everyday lives at school and at home. We undertake to guide and educate all our children in the safe use of the internet and encourage you to continue this into their use of technologies in the home. Please take time to read the attached leaflet we have prepared giving information on safe searching, how to set privacy settings and general useful links and talking points regarding this vital topic. There is more information and resources on the school's website 'eSafety' page.

I also enclose a Home/School Acceptable Use Agreement for both you and your child to discuss, read, sign and return to school as soon as possible. There is also a separate form giving permission for your child's work and image to be used on the school's website, app and twitter feed and in other marketing material associated with the school. You may find some of the resources mentioned in the leaflet a useful starting point for a home discussion about acceptable use of the internet.

Your signed agreement needs to be returned to school in order for your child to use the many technologies available to them in school. All students are also issued with their own London Grid for Learning logon which will enable them to access lots of internet-based resources both in and out of school. Please do return your signed form at the earliest opportunity.

Thank you for your help in this matter.

Karen Willis
Headteacher
