

At St James' Church of England Primary School we

- Have an eSafety policy (please see our website);
- Issue Acceptable Use Agreements (AUAs) which lay out the guidelines for safe and fair internet use both in and out of school;
- have a commitment to safeguard your privacy, as laid out in Privacy Notices issued regarding parents' and students' data.;
- regularly seek your consent to re-endorse your permission to use images and re-produce children's work;
- Have a team of safeguarding officers;
- Regularly update a section on our website dedicated to eSafety information and resources for parents and children.

- **Who can I contact if I am troubled by something I have seen on the internet?**
- Contact **CEOP**: <https://www.ceop.police.uk/ceop-reporting>.
- **If you need urgent help, call 999 now**
Don't delete any emails, images or conversations related to this report. Don't contact the suspect yourself.
- **Childline: Telephone: 0800 1111, calls are confidential.**
- **Email the school, anonymously if you wish:**
<https://swgflwhisper.org.uk/report/stj2>
- **Or Text the school, anonymously if you wish:**
Text STJ2 + message to 078600 21584

Helpful tips for you and your family to stay safe online

Our children are extremely fortunate to be growing up in an exciting digital age with technology at their fingertips, with their use of laptops, smartphones, DSs, ipads, xbox and a host of other internet –enabled devices. At St James' we take all aspects of the children's safety very seriously and this includes teaching them to use the internet appropriately both at school and at home. We hope this leaflet helps you and your family to be guided safely through your use of internet.

Our Acceptable Use Agreement for KS1

We only go online with a grown up

We are kind online.

We keep our information safe.

We tell a grown up if something online makes us unhappy.

Our Acceptable Use Agreement for KS2

We ask permission before using the Internet.

We only use the Internet when an adult is in the room.

We only search for websites directly related to our schoolwork.

We tell an adult if we see anything we are uncomfortable with.

We only e-mail people an adult has approved.

We send e-mails that are polite and friendly.

We never give out personal information or passwords.

We never arrange to meet anyone we don't know.

We do not open e-mails sent by anyone we don't know.

We do not use Internet chat rooms at school.

Visit our eSafety pages at www.stjameschoolbermondsey.com for resources, information, activities and help.

- **Safe searching settings:** make sure you set your internet providers safe search or parental functions to check that adult, inappropriate content is blocked although remember, no search engine is completely safe, family discussion and adult supervision are the best way to find out what is being accessed and whether it is suitable for your child.
- **Privacy settings:** review your settings regularly, on all search engines (Google, etc.) and social networking sites like Facebook. Are you clear what personal information, photos, etc. are being shared on the internet and can be viewed by total strangers? These settings are also applicable for ipads, smartphones, game consoles and any device that can access the internet. Youtube also has parental settings in order to block adult content. <http://www.safesearchkids.com/youtube-parental-controls/>
- **Search Engines:** If your children are using the internet for research they will be safer by using a child-friendly search engine like <https://www.safesearchkids.com/>, <http://primaryschoolict.com/>, <http://www.kidrex.org/> which are specifically for primary aged children or through the BBC or CBBC pages. For images try <http://www.pics4learning.com/> which has a "family friendly" policy .
- **Useful Links:** There are many organisations that offer help and advise about staying safe online, here is just a small selection that may help you and your children. Visiting them together may be the start of a useful discussion within the family which helps you all to agree an "acceptable use" strategy within your home, to know what is acceptable and what to do if someone accidentally comes into contact with something on the internet that makes them feel frightened or worried. Why not agree a list of rules and stick it on the 'fridge - CBBC's "Staying Safe Online" might give you some ideas to talk about and they also have some fun videos based on familiar characters to help get the message across. There are also games, discussions and information about staying safe on these two websites:

<http://www.thinkuknow.co.uk/>

<http://www.kidsmart.org.uk/>

This site enables you to create an avatar rather than use your own image on line!
