

We subscribe to a service called Tapestry Journal, sponsored by the Foundation Stage Forum, which enables you to share your child's experiences and achievements out of school with us, and allows us to share some of what they have been doing in school with you. By downloading the Tapestry app to your device you can logon with the user details we can provide for you and upload and view the photos and information logged against your child's name.

As with all data systems utilised by St James' that rely on personal data such as name, date of birth and email address, Tapestry has a privacy policy that abides by the new GDPR regulations (General Data Protection Regulations). To see a copy of this Privacy Notice, together with St James' and the many other systems we use, please visit our school website www.stjameschoolbermondsey.com and visit the section on GDPR under 'Our School Information'.

Once you have downloaded the free app, input your email address and the password and pin that will be provided to you by St James' in order to start logging photos and a narrative about your child. Each email and pin is associated specifically with your child only, and these are the only ones you will be able to view with these logon details. Please avoid logging photos that include children other than your own. These learning journeys help to inform us of what your child enjoys outside of school hours, and lets you know about the kinds of projects they are undertaking in school. We hope you enjoy using it.
