Includes administrative and clerical staff, administrative supplies and bought in professional services for administrative functions such as finances and legal	£573.00	£537.00	£496.00
Energy			
Includes all costs related to fuel and energy	£48.00	£46.00	£70.00
All other spending	£2,449.00	£2,195.00	£2,104.00

About this data

▼ [Further information](#)

The finance section allows you to compare the outcomes schools achieve with how they spend their money, and so ask questions about how they could use their resources more efficiently and effectively.

Where possible, figures are shown as income or spend per pupil at the school to make comparisons easier. Some schools, such as academies and free schools, publish their financial information in different ways. You can find information about the income and spending of an academy or a free school in the annual report and financial statements provided.

To compare school incomes and spending fairly, you should consider the percentage of children eligible for free school meals (FSM), the type of school and whether a school is in London or not.

Local authority and England averages

Please note the England and local authority finance figures provided are all middle (median) values, the most appropriate type of average for this data. Using medians means that the figures for each aspect of income or spending in a region may not add up to give the total spending value (which itself is a median value).
